LEARNING PHILOSOPHY

Fusion's learning philosophy is Love, Motivate, Teach. This thoughtfully designed approach prioritizes social-emotional learning by making the student-teacher relationship foundational. Through our balanced one-to-one teaching and mentoring approach, teachers spend time getting to know each student and design a learning experience based on the student's strengths, interests, and goals. Teachers see each student as an individual capable of succeeding and when a student feels safe and cared for, they are more engaged in the learning process.

SCHOOLWIDE LEARNER OUTCOMES
